	Question	Response
1.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Really intent on keeping the class conversation open. Very open minded. Was late on feedback, but provided very good feedback, so pro and con there. Would definitely take another class with this instructor. Passionate and lively during class. Very helpful.
2.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I think that incorporating digital technologies in the course was vital to my understanding of the course. The use of these technologies not only broadened my understanding (both of the material, and how to use the technologies) but also made the class fun to participate in.
3.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory was so helpful during his conference hours and our class discussions were always interesting and helpful to understanding the, at times, dense material. He provides tons of additional materials and examples so that the course is easier to navigate and succeed in. I loved the way he taught this course.
4.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I loved having Rory so much! His class was engaging, thoughtful, and throughly beneficial. He is clearly passionate about rhetoric and digital literacies, and I felt like I gained so much from this course. His real life examples have aided me to think beyond the academic structure and contribute to the larger conversation of digital literacies. This class, in my opinion, should be required for all majors, and if possibly, with Rory.
5.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Feedback was a little delayed this semester, but understandably since his wife had a child mid semester. But, he always pushed back due dates if this was the case.
6.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	We agree on grading structures in class and we get feedback, but do not see grades on blackboard for pretty much the entire semester.
7.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I think that there should be a digital literacy in education and a digital literacy in T comm. By combining the two the material that we cover is too broad and general, instead of creating a focused look at practical aspects of Digital Literacy in our chosen professions.
8.	Please provide any additional written comments on the instructor's strengths and weaknesses.	I enjoyed every project I was given this semester.
9.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I wished he would have shown less videos. I felt like I wasted time coming to class when all we did was watch videos.
10.	Please provide any additional written comments on the instructor's strengths and weaknesses.	I personally found Rory to be a delightful professor. I really enjoyed how he made use of more contemporary sources such as YouTube videos. He also always seems quite knowledgeable in this field and articulates it well.
11.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I liked how structured the assignments were. Each reading really pertained to each section of the course we were working in.
12.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory is incredibly engaged with his students and is able to draw out meaningful conversation and discourse from his students
13.	Please provide any additional written	I thoroughly enjoyed Rory's class. He always kept us engaged and focused more on us actually learning the content than he did with grading. With that being said, he was the type of professor who saw potential in all of his students and always looked for what was correct in our projects, rather than what was wrong. Each of the projects we had in the class allowed us to explore our interests. He

We read a lot of articles and watched a lot of videos that really aided me in understanding the content of this course. I really liked that he was super opinionated and really pushed us to begin forming our own opinions on the content being covered.
14.	Please provide any additional written comments on the instructor's strengths and weaknesses.	This instructor challenged my think and learning style. Overall I think this was an interesting class.
15.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	This class really expanded my knowledge and helped me think about literacy in a new way. The projects especially were enjoyable and impacted my education.
16.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory is always there to help you no matter what you need. There has never been a time where I have felt like I couldn't go to him for help. He has expanded my knowledge about digital literacies and in turn has made me very interested about digital media and digital literature that I may even add it as my minor. Great teacher!
17.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I'm a very structured person so sometimes I found it really hard to have so much flexibility when it came to major projects. However, I have found that this causes me to force myself to think outside of the box, which in turn has made me very proud of the work I have produced.
18.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory is an exceptional professor who I very much enjoyed learning from. I always looked forward to coming to his class because I always knew the information would be pertinent to our learning objectives. There was never a blowoff day, it was always very clear to me he cared about his class as well as his students and their thoughts, questions, and concerns.
19.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I found this course to be very useful. I have certainly gained knowledge that I did not have before and will continue to use in the future.
20.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Dr. Lee was honestly one of the best professors I've had. I have a lot of out there ideas when it comes to projects and usually have many professors turn me down and tell me its too much. Dr. Lee never turned down my ideas for projects, he embraced them and made me learn more because of them. He is very passionate about what he teaches and i have always admired that in a professor. And he cared for his students and would always assure us we could turn to him if we needed. I would rate him 10/10 would take the class again.
21.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	This course was a shock to me. A shock that it ended up being my favorite class of the semester. This course isn't what it seems, there are so many different things I learned that I never thought I would end up getting a chance to learn in any type of schooling.
22.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Throughout the semester, several classmates and I were kind of confused on what he wanted on things. I don't feel like he explained what he wanted out of us for our projects. Also, he went way off the deep end when Trump one the election. He called a lot of people fascist, and equated the election results to 9/11. He later apologized for what he said, but I think it says a lot about his character.
23.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Grades weren't back super quickly but with everything going on this semester, the class understood why.
24.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	The only issue I have with grading is that I don't know where I stand in this class because its not blackboard.
