**Comments**

Question	Response
1. Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory is an amazing teacher and I highly recommend this class to future students
2. Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	It was a great semester and we tackled so many topics, I learned so much and it really opened my perspectives on a lot things that we discussed in class.
3. Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	Wonderful teacher. All the readings were interested and pertained to the class. Very discussion based, and allowed for lots of input for the students. I really enjoyed this class and Dr. Rory Lee as a professor. He is very understanding and patient.
4. Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I really wish that you would have posted our grades online or had an easier way to check the grades rather than through emailing you or meeting in office hours. I enjoyed this class a lot though, really broadened my knowledge on the literacy of the web.
5. Please provide any additional written comments on the instructor's strengths and weaknesses.	He made the class really exciting and fun to come to, even as a late class. Even the topics that were really difficult to understand in the readings were made very clear and easy to understand by him in class.
6. Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I wish there was a more well-explained grading system and that grades were routinely put into blackboard for me to follow my progress.
7. Please provide any additional written comments on the instructor's strengths and weaknesses.	Feedback has been a bit slow, would have enjoyed knowing the feedback earlier on in the process of other projects and don't have feedback for any other assignment in the course.
8. Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I wish I would have been able to see the grades for the assignments through blackboard throughout the semester because I have no idea where I am standing in the class and I won't know until after everything is graded and done which really bothers me. Otherwise the grading is clear, but not being able to see the grades really sucks.
9. Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I really enjoyed the discussion topics and the way everyone was allowed to have a say. There was a generous amount of time for anyone to fit in their opinions and stories which made this class feel like an interesting and safe environment.

	Question	Response
10.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Dr. Lee is an incredible professor and I have learned so much in this class and from him. This has been my favorite class and Dr. Lee has been my favorite professor not only this semester but throughout my college career. Every Tuesday and Thursday I look forward to this class and the insightful discusses we have. I loved how Dr. Lee structured the class and the discussions and he is such a knowledgeable, understanding, and inspiring professor.
11.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I love the openness of the projects and that we have so much room to be creative and work with ideas, topics, and concepts that we're passionate about.
12.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory is absolutely amazing, and very knowledgeable in this area!
13.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I did struggle at the beginning of the semester with understanding the material and terminology. I wished there would have been a little bit more explanation of terms such as rhetoric at the beginning. I was only really confused at the beginning, though. When we started our projects I got a much better grasp on the class and what was going on! This was a great class, and Rory is an amazing professor! I wish I could take more classes like this one.
14.	Please provide any additional written comments on the instructor's strengths and weaknesses.	I liked how engaging the class was. It was nice that there was so much room for discussion even though I didn't talk much. Professor Lee was friendly and very engaging to the students. He was very respectful to his students and treated them like equals, which was nice. His use of pop culture and current media is a good way to keep students engaged and interested.
15.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	Not knowing my grade was kind of annoying, plus never getting feedback on the journals and QQT's. Not knowing what my grade was be made me anxious. QQT's and journals were good assignments to have, they weren't too hard. Some of the texts were quite long though and hard to understand, despite multiple readings.
16.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Professor Lee was very enjoyable this semester! Although I'm not a fan of night classes, I always looked forward to class discussions and watching interesting videos. He had great energy every class and really seemed to enjoy what he's doing. It was refreshing to have a "human" professor that can relate to us and make class fun.
17.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I think the structure of the class worked very well-- at least for me. We had weekly readings and assignments that we discussed every class period. Then we utilized those skills by creating digital projects. I learned a lot this semester. When it came the projects, the first one was a bit overwhelming just because it was so new to me. But once I got the hang of it, future projects were a breeze.
18.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Whenever I met with Dr. Rory Lee, honestly expanded my mind on every project I had. He is very helpful at making you see different viewpoints and different conversations you may have not thought of before. From being very informed to constantly showing different examples and professionals you constantly were seeing how everyone thinks and reacts to the situation.
19.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I think as a course really was just interesting being 1 of 3 males in the course. I should have honestly not been that surprised, because it is a weird topic. I'm just glad I was able to have so many female classmates due to the fact their viewpoint was something I never really analyzed other then my two older sisters. This course made me very happy as to showing me different trends in society and different stats or basis behind certain subjects/exigences.
20.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory was, and I do not say this lightly, one of the best teachers I have ever had in my entire education career. He is the type of teacher, professor, supporter and role model you would want teaching the future minds of America. He was consistently honest, vulnerable, deeply-rooted, compassionate and always, always listened to what we had to say. His content was always interesting, involving open discussion and group work. He explained everything explicitly, made sure we were all on the same page, and constantly offered help if we needed it. He made this class not only enjoyable, but memorable. I'm thankful to have had him as a professor, as well as a role model I can listen to and bounce ideas off of. He makes everyone feel validated and important. Give this man a raise!
21.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I love how often we do group work, and engage with others. I love talking, communicating with others, hearing other peoples opinions, wondering why they feel the things they do, and talking through them. Everything about this course allows us to do that, every singe time we meet. Rory was always giving his opinion as well, never holding back on what he believed, and I think that is really important for a teacher to do. Being able to make his students feel comfortable, and able to talk about anything. He provided a very contagious learning environment, as well as a safe space for everyone to feel validated and heard. This course, with this professor was absolutely incredible. I honestly wasn't even supposed to take this class, but I'm so glad I did. Best "mistake" I ever made
22.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Professor Lee is a very engaging and insightful instructor. He tries very vigorously to keep the course material relevant and up to date, considering digital literacies are always changing and evolving. He initiates extremely interesting and fruitful discussions in class and is very flexible and willing to talk, listen, and work with his students.
23.	Please provide any additional written comments on the instructor's strengths and weaknesses.	This teacher said he "does well with awkward silence." This professor REMOVED THE GRADE TAB FROM BLACKBOARD and doesn't even give students their overall grades when they come to office hours. He does not keep the conversation on track or directly answer discussion questions from students.
24.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	We stopped reading "course materials" after the 10th or 11th week. Our discussions have stopped being intellectual and more "rant"-like, where students don't even talk about the readings. I'm so confused by the final project that we completed for this class--if we could choose any rhetorical situation we wanted, how is that going to help us learn about digital literacy? It's too easy of an assignment for a final exam grade.
