	Question	Response
1.	Please provide any additional written comments on the instructor's strengths and weaknesses.	Rory's awesome! I wish I could take his class next semester.
2.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I really liked the texts that we read, especially the latter ones by Jenkins.
3.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	This was a hard semester to teach between the election and external factors. I think Rory did a good job addressing the materials most relevant to the course goals and using assignments to reinforce what we were talking about in class.
4.	Please provide any additional written comments on the instructor's strengths and weaknesses.	The question of whether instructors "explains course content clearly" presumes that students agree that "explaining content" is a core function of a teacher. I see no fault in Dr. Lee's instruction in this regard, but it is essentially NOT the function of a teacher to explain. More accurately, it is the function to facilitate understanding. As such, Dr. Lee is also proficient, but this is a separate question.
5.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	This was a great addition to my coursework despite a somewhat ambiguous course description. I was bettered by the assignments and discussions. I felt like the face to face elements were worthwhile and the readings were pertinent.
6.	Please provide any additional written comments on the instructor's strengths and weaknesses.	I really appreciated Rory's ability to be transparent in the classroom maybe sometimes a little too transparent, but that's okay. This created a very comfortable atmosphere during class.
7.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	I really enjoyed the depth of our conversations this semester. I felt as if we really did have opportunities to state our opinions and then work through understanding the course material better. Sometimes, this led to discussions going over time and I think that shows, that these discussions were good. The only thing I would say is, perhaps we had too much material prepared for each day? Which led to us not getting to go over everything?
8.	Please provide any additional written comments on the instructor's strengths and weaknesses.	I really liked this class. Although the classroom environment was relaxed learning did take place. I like the course materials for some of the readings were eye opening. I also liked how flexible you were during the semester, and your willingness to change the reading based on our interest. Although we received written feedback a little late, I personally do not mind since the oral feedback was equally valuable. This course definitely taught me to look at writing technologies differently, no longer as transparent technologies.
9.	Please provide any additional written comments on the strengths and weaknesses of the course. You may comment on such things as the use of assignments, text(s), exercises, exams, etc.	This course does a great job of encouraging students to view technology through a more critical lens.
